

# Linux Security App

Christopher Mai (chrmai1)

# Overview

- Two Main Components
- Linux Security Handbook
  - Describes various steps to take to secure you system
  - Includes Check List
- Network Scanner
  - Scans your system checks running systems and the like
  - Port Scanning

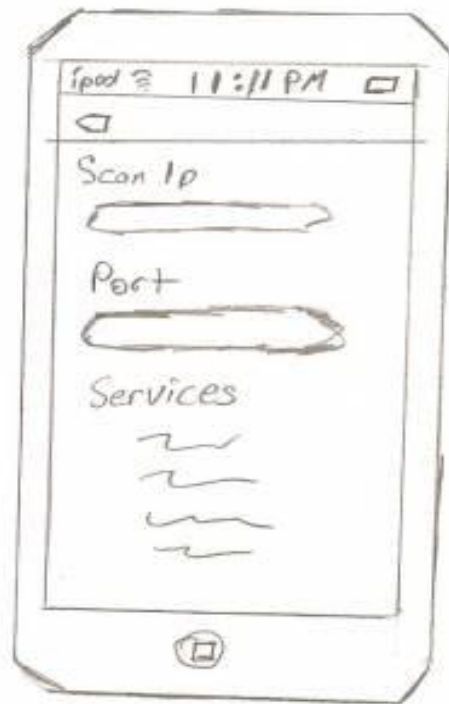

# Mock-Up

# Mock-Up

# Mock-Up

# Thoughts

- No Idea How to do the port scanning yet.
- Handbook part is fairly straight forward in code
